Our Philosophy

Children are our greatest asset. The program we offer is fun, exciting, stimulating and designed to challenge your child in all areas of development – physical, social, emotional and intellectual.

At Kids In Paradise we strongly believe in the importance and value of play, where children learn through a variety of concrete, hands-on, sensory experiences. Research has shown that play is the best "exercise for the brain" because it provides the most appropriate stimulus for brain development. Therefore, an optimal learning environment for young children is one that is child-centered, child-initiated, and play-based in order to promote the development of the whole child.
