

National Child Day is November 20, 2017

ECEBC | early childhood educators of BC

Children and Early Childhood Educators go hand in hand. Both deserve respect.

Every Child in Canada has the right to quality early learning and child care.

Priorities for action include:

A comprehensive system of early learning and care and a wide array of opportunities for early learning and child care be available (A Canada fit for Children, 2004, p.17).

Quality education and learning-focusing on the quality of the learning environment and on teaching and learning processes and programs is crucial (Ibid, p. 35).

Invite your MP to learn more about how the work of ECE's supports children's rights.
