Why is Ethics training important?

Professionals in the Early Care & Learning sector work with one of the most vulnerable groups in society – young children. The quality of the interactions between young children and their caregivers has a significant, enduring impact on children’s lives. The intimacy of the relationship and the potential that exists to do harm call for a commitment on the part of early childhood educators to the highest standards of ethical practice.

ECEBC recognizes its responsibility to promote ethical practices and attitudes on the part of Early Care & Learning professionals. This four-part series guides participants on a journey of ethical discovery and awareness. Participants will have the opportunity to explore personal values, beliefs and assumptions, and examine the complexities in ethical decision making.

For more information regarding Modules One to Four, please visit ECEBC’s ethics training page at <http://www.ecebc.ca/programs/ethics.html>

Morning refreshments will be provided but please bring a packed lunch
