Indigenous Cultural Safety and Allyship

YOU ARE INVITED TO A FREE ONLINE
WORKSHOP

Guiding the Work: This dialog examines the emergence of Indigenous Cultural Safety in relation to Reconciliation and equity-oriented approaches to supporting Indigenous peoples. Some of the major themes are discussions around the purpose and significance of Reconciliation as a structural initiative and anti-racism tool: to assemble strategies to embed Reconciliation into professional practice, and to examine the relationship between colonialism and violence against Indigenous peoples and its implications for Reconciliation and decolonization today.
